Subject: UIC manager meeting question

A question was asked by HQ at the meeting on Wed, have we approved any aquifer exemptions in the last year or two?

I am not aware of any, but please let me know.

We need to tell them the state and what kind – EOR related or disposal or class iii or.... If you could get back to me by COB today that would be great. I have the Asphalto in CA as 2009. And of course the expected one from Cat Canyon.
